

The letters 'HP' are printed in a large, black, serif font on a light-colored, textured rectangular panel that resembles a piece of stained glass. The panel is set within a larger, light gray hexagonal frame. To the right of this panel is a smaller, yellow-bordered hexagon containing a stylized illustration of a woman's face with dark hair and a flower in it, also appearing to be part of a stained glass design.

STAINED GLASS

Beginner's stained glass classes

Students with little to no experience are welcome to come learn the process of copper foiled stained glass while working on custom designed pieces (flat panels or suncatchers) or beginner patterns provided by Heather. Bring your own tools or work with Heather's (she has plenty).

Students new to stained glass will learn the core skills needed for pattern design, tool selection, glass cutting and foiling & basic soldering techniques. Two to three class sessions should be enough to build a suncatcher for your window or a small panel. Classes will focus on the needs of the participants, so if you have some experience, come try a harder project and share in the collective spirit of making art.

\$30 per session - glass sold separately

Wednesdays May 3- June 14 ~ 5pm - 7pm

At the Gorham Rec Department

33 Exchange St., Gorham, NH
