# WE NEED YOUR HELP!!

## NO WIPES IN THE PIPES!!

### It's not a trash can! Please flush only the 3 P's – Pee, Poop, and Paper

Wipes won't decompose....they get caught up in our Pump Stations and Wastewater Treatment Plant screens and filters – and that costs money to clear and repair! Wipes can also cause the sewer to back up into your home.

### Help Protect the Town's Wastewater Treatment Plant

Please help protect our environment – and prevent costly Wastewater Treatment Plant repairs that could cause increases to your sewer bill!

#### STOP!! NEVER FLUSH THE FOLLOWING:

- Baby Wipes
- Disinfecting/cleaning wipes
- Paper Towels
- Rags, towels, washcloths
- Towelettes
- Kitty Litter
- Needles, syringes, and other medical waste
- Diapers
- Mop/cleaning brush refills
